Myles Wilson, Director of Schools

February 25, 2008

Dear Ms. Pittman:

In response to your request for a copy of a January letter from the Department of Justice, I am unable at this time to provide you with a verbatim copy. The letter was addressed to me and the school board's attorney, Thomas M. Minor and it is the work product of the attorney who wrote it. Additionally, the letter refers by name to several students in the school system, as well as identifiable groups of students. I have asked Mr. Minor to research any confidentiality issues related to the letter before it is made public. Accordingly, I should be able to give you more information on this matter by the end of the week.

Sincerely,

A handwritten signature in cursive script that reads "Myles Wilson".

Myles Wilson
